

**LIGHTWORK DREAMS
INCORPORATED**

OUR MISSION

Lightwork Dreams Incorporated is a 501(c)(3) public charity whose mission is to propagate the principles of "Lightwork," a system of personal development and spiritual growth that teaches individuals to align with their highest life purpose. Lightwork promotes the working together of all who carry the dream of world peace. Lightwork teaches universal advancement through the blending of spirituality and major fields of societal endeavor. These fields include: education, medicine, psychology, social services, the arts, science and technology, and business. Lightwork fosters the evolution of these areas by promoting social transformation and inspiring new innovation and creativity.

Through application of the principles of Lightwork, individuals bring more joyful direction and clarity of purpose into their lives and into their professions, thereby fostering their personal development as well as the collective upliftment of society. The techniques taught in this system connect individuals to their source of internal strength, and assist them in birthing their dreams, ideas and inventions to advance the human condition.

Lightwork Dreams Incorporated works toward these ends by providing assistance in five major areas—those of education, social services, the arts, science and technology, and inspiration. These areas are represented by our logo, the five-petaled rose, the ancient symbol of the sacred feminine, an aspect inherent in all humans which encourages the proliferation of divine love in the world.

EDUCATION

Through our area of Education, we offer training and materials on applying the principles of Lightwork in one's personal and professional life. Our innovative educational programs, including classes, workshops, books, publications, and broadcasts, assist children, adolescents, and adults in aligning with their greater selves and expressing their highest and best intentions. In addition, our educational programs and materials aid professionals in integrating spirituality into their fields of endeavor. For example, one of our programs teaches medical professionals (including physicians, nurses, psychotherapists, and massage therapists) how they may bring spirituality into their work with patients and clients. LDI offers scholarships for attending our workshops and classes to those who qualify on the basis of need.

SOCIAL SERVICES

In the area of Social Services, LDI contributes to and sponsors innovative programs that help both human and animal populations in need of assistance. Our aim is to uplift the conditions of disenfranchised people, such as the ill, the mentally and physically disabled, the aged, and the impoverished, by providing clothing, food, housing, health care, legal aid, and other support. We also assist animals who are in need of rescue, medical care, shelter, and/or advocacy.

THE ARTS

LDI supports and develops programs in the Arts, in all of their expressions, including, but not limited to film, music, writing, and applied arts, with the purpose of furthering and enhancing the human condition. We recognize the importance of the Arts in our purpose of bringing enlightenment and advancement to the world.

SCIENCE & TECHNOLOGY

In the field of Science and Technology, LDI funds and assists research and development that will contribute toward the advancement and well being of all life. We encourage innovation and invention in such fields as medicine, technology, communications, ecology, business and the environment.

INSPIRATION

Through Inspiration, our fifth area of focus, we acknowledge that divine inspiration is the guiding force which illumines the higher path for humanity. We honor all spiritual traditions and see them as a foundation for bringing the world to the next stage of development in which humanity works together for the highest good of all. It is through sacred inspiration that Lightwork Dreams nurtures and advances our work in the areas of education, social services, science and technology, and the arts. In this way, we endeavor to contribute to a more elevated world based upon inclusiveness, kindness, and peace.

LDI mirrors a new era in which the great spiritual wisdom of the ages is being blended with the principles of the Divine Feminine. This energy, available to both men and women, brings in the qualities of unconditional love, compassion, forgiveness, and peace. This is the basis through which and by which LDI contributes to the development of a world which honors the sacred in all life.
